Professional Summary

Full-Stack Developer with 2+ years of experience building web applications, booking platforms, dashboards, and business websites using Laravel, React, Next.js, TypeScript, and MySQL. Skilled in REST API integration, multilingual and RTL interfaces, responsive UI development, debugging, deployment, and delivering production-ready solutions based on client requirements.

Professional Experience

- 07/2024 – Present

Dokki, Giza

Corpintech, Full-Stack Web Developer

- Developed and maintained responsive websites and Laravel applications for clients across media, legal, nonprofit, e-commerce, real estate, and construction sectors.
 - Built multilingual Arabic and English interfaces with RTL support, dynamic content, forms, dashboards, and database-driven features.
 - Implemented client requirements, resolved frontend and backend issues, and supported testing, deployment, and ongoing maintenance.
- 07/2025 – 12/2025

Misir Al Gedida, Cairo

Neon, React Frontend Developer (Part-time)

- Led the frontend development of a farm management system using React, collaborating closely with a backend developer responsible for the REST APIs.
 - Built reusable interfaces for farms, plots, stock, invoices, notifications, and reports.
 - Integrated REST APIs and handled validation, dynamic data, loading states, error handling, multilingual content, and RTL support.
- 07/2024 – 05/2025

Dokki, Giza

Digital Media Factory, Frontend Developer (Part-time)

- Developed responsive and interactive web pages using HTML, CSS, JavaScript, jQuery, and Bootstrap.
 - Converted designs and client requirements into multilingual Arabic and English interfaces with RTL support.
 - Maintained existing websites, fixed UI issues, and improved responsiveness and browser compatibility.
- 01/2024 – 04/2024

Kuwait, Remote

On Call, Frontend Developer

- Developed responsive booking platforms using Next.js, TypeScript, and shadcn/ui.
 - Built responsive and reusable components for service listings, booking flows, user forms, and reservation management.
 - Integrated frontend interfaces with REST APIs and handled validation, dynamic data, loading states, and error handling.
 - Collaborated with backend developers to deliver production-ready features and improve usability across web applications.
- 11/2023 – 05/2024

Nasr City, Cairo

Bedab Software, Frontend Web Developer

- Refactored an existing React and Next.js web application, improving code structure, component reusability, and maintainability.
 - Integrated frontend interfaces with backend APIs and implemented dynamic data rendering, forms, validation, loading states, and error handling.

- Built and updated responsive components based on project requirements while fixing UI, functionality, and cross-device compatibility issues.

09/2023 – 11/2023
Giza, Remote

MYM - Make Your Miracle, *Frontend Web Developer (Internship)*

- Built responsive interfaces using React and Vite, implementing filtering, search, pagination, localization, debugging, and responsive design improvements.

04/2023 – 06/2023
London, Remote

Enseedling, *Frontend Web Developer (Internship)*

- Built responsive interfaces using React and Next.js, integrating APIs, implementing routing, debugging issues, and improving responsive behavior across different screen sizes.

Education

09/2019 – 07/2023
Al Shorouk City, Cairo

B.Sc. in Management Information Systems, *Al-Shorouk Academy*

- Grade: Very Good with Honors.
- Graduation Project: Developed a security awareness and data-breach assessment platform with practical labs covering OWASP Top 10 vulnerabilities. **Grade: A+.**
